Jury Trial Today.

The motion list business occupied but a short time and court was adjourned to come in this morning at ten o'clock when the jury will be in attendance for the trial of the case of William O. Wheeler vs. Caleb Wheeler.

Both Wives and Their Children Are By Members of Baraca and Philathea Now Left Alone. Classes of Methodist Church.

The peaceful atmosphere that pervades the town of Salem was disturbed last week by the sudden disappearance of Frank Nadack, a middle Monday evening witnessed a merry scene at the new home of Mr. and Mrs. Frank E. R. Leete on Thames are, Frank E. R. Leete on Inames street. The affair was a complete surprise to the young couple, preliminary arrangements having been left to William McNeely as master of ceremonies. It was carried into effect under the auspices of the young men's Baraca class of Trinity Methodist church. After some choicely rendered plano numbers by Charles S. Donnelly, it was announced that a brief history of this Baraca class would be given appearance of Frank Nadack, a middle aged Polish farmer, who has occupied one of the Alfred Mitchell farm houses in the southwestern part of the village for about five years, says the New London Telegraph. The neighbors say that Nadack was alarmed by the very unexpected appearance of his real wife, who drifted into Salem a short time ago from some fown in New Jersey. of this Baraca class would be given by Mrs. M. He is said to have two children by his first wife. The alleged illegal wife, so the neighbors say escaped from Poland under some kind of a cloud. Some say that she committed a serious offense in the mother country and was obliged to flee to America. She is now in Salem with her children, two of them twins.

Nadack's departure was preceded by a sudden desire to sell off all his available property, including farming tools. His whereabouts is a mystery. The neighbors say that his first wife correspended with him under the guise of Nadack's sister.

After the foregoing remarks, George
E. Robinson, president of the Baraca

presented Mr. Leete a large picture of

and with the good wishes of all present. To this Mr. Leete responded
with deep expressions of appreciation.

Mrs. Robert E. Beardsiey, president Twelve Inch Pipe in Use There Now -Worked Night and Day Making Connections.

The new twelve inch pipe which the water department has been laying through West Main street for a distance of 700 feet beyond Pierson's barn is now in use and the long trench is being filled in. It was necessary to lay the pipe the entire length and allow the old six inch pipe to remain until ready to make the new connections at each end. This was done on Saturday night, the job being completed about 3 o'clock Sunday morning. It was therefore only a short time that the water was shut off from the residents of that section, and now there is a continuous large pipe through to Thamesville, serving to increase the pressure at that end of the city. The old pipe has been removed from the ditch, and the connections with the houses made from the new pipe. On Monday employes of the department worked in the rain to hurry the filling of the ditch, and it will be completed in a day or two.

The banging of blinds and the blowing over of all things movable gave evidence through the night that those outside had anything but an enviable time. No other damage of an extent was reported during the evening.

Because of the storm both of the large department stores closed up and allowed their clerks to go home from thirty to fifteen minutes before the usual closing time of 9 o'clock. The other stores that usually keep open Monday night also put out their lights and closed up, as there were no customers to be seen on the streets.

Eradicated by New Skin Remedy.

Ever since its discovery, postam, the new skin remedy, has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialist who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barber's itch, etc., resuits show after an overnight application, only a small quantity being required to effect a cure. Those who use polsam for these minor skin troubles should immediately secure one of the special 50-cent packages recently adopted to meet such needs.
